

REPAIR AND REBUILD SERVICES

Five Locations To Service The Intermountain Area.

Founded in 1946 Kimball Equipment Company specializes in crushing and screening equipment with five locations to service the intermountain area with qualified service staff in each location. We stock an extensive inventory of equipment and parts for quick response to help minimize your downtime, thus saving you time and making you money. Our Salt Lake City machine shop is one of three Terex Cedarapids authorized repair facilities in the world.

Recognizing the need for a centrally located crusher service center in the Western United States, Kimball Equipment Company has accumulated the tools and capabilities to repair Terex Cedarapids®, El-Jay® and other crushers. Our availability of new and rebuilt components are supported by skilled field service personnel stationed at strategic locations, which enables the fast-track turn around of critical repair jobs. We are able to provide major components and assemblies from our inventory on an exchange or rental basis to return crushers to operation with minimum downtime and repair costs.
